Job Description	

Intelligence Intern

Why YOU want this position

Since our founding as a groundbreaking provider of oil & gas data, we have evolved our solutions to cover oil & gas analytics, trading & risk, and business automation for customers across the energy industry. Enverus represents this growth, while bringing us closer together as one team. Enverus delivers business-critical insights to the global energy industry through a state-of-the-art SaaS platform built on industry-leading data and energy analytics. Our solutions deliver value across the entire energy value chain, empowering customers to be more agile, efficient, and competitive. The range of energy industry participants we serve includes exploration and production (E&P) companies and related businesses such as oilfield services, midstream, capital markets, power generators and utilities, energy traders, and downstream commercial & industrial energy consumers.

Would you love to work collaboratively to compile investment research for institutional investors and corporate clients? Do you like to work and be challenged in a fast paced, dynamic environment? As an Intern on the Intelligence team, you will have the opportunity to utilize multiple skills while enhancing your understanding of corporate finance and the E&P sector, reporting directly to a Senior Associate. Join us on our Intelligence team, in our Calgary office.

Qualifications

Performance Objectives

- Assist in creation and maintenance of company valuations and financial models
- Compile and maintain comparison tables and merger and acquisition databases
