Job Description	

About Lendesk

We're a financial technology company on a mission to create graceful products that simplify the mortgage process and help fund the future. Our flagship product is an advanced digital mortgage origination platform that connects borrowers, brokers and lenders. We're a fast-growing team of 50+ employees, composed of innovative and engaged individuals working collaboratively to deliver a unique digital home buying experience.

We are looking for a Developer to?
• Assist in development of Lendesk features, UI or tools.
• Research solutions and create prototype solutions
• Participate in code reviews for other developers
• Write technical documentation, tests, and stories for your contributions
• Participate in requirements workshops, standups and retrospectives with your team
• Be actively involved in developer roundtable discussions to improve our process, tooling and techniques

Qualifications

Skills &Requirements

We're looking for smart people with a great attitude, life-long learners with great teamwork and collaboration skills.

Our primary technology stack is:
• Ruby &Rails
• React &React Native
• Postgres, Redis, and Elasticsearch
• AWS Services (S3, SQS, SNS, etc.)
What We Expect From You
• Some experience with HTML, CSS, and Javascript, or Ruby
• An understanding of object oriented principles
• Teamwork-oriented approach to problems
• Great communication skills
• Easy-going but hard-working personality
• Curiosity and enthusiasm about learning new skills
• Ability to understand when it's appropriate to try once more and when it's time to ask for help
Bonus Points
• General awareness of mortgage and/or private lending industry
• Experience with the world of Fintech
• Understanding of Agile / Scrum practices
• React
• Ruby on Rails
• Experience with paired programming and other extreme programming practices
What We Offer

In addition to the exciting work, great people and a fun and supporting culture, we offer extensive benefits and perks package:
• Modern pet-friendly Yaletown office in Vancouver, BC right next to public transit
• The latest in hardware and software tools
• All the healthy snacks you can eat
